

Psychology

Course content

The content of the course includes approaches and methods related to the core areas of psychology: cognitive, social, biological, developmental, individual differences and research methods, as well as explanations from different theories, along with psychological issues and debates. In addition, there is the opportunity to see how psychology is applied in real life when we study forensic psychology, schizophrenia and gender. [This course is an award of AQA. Visit the AQA website to read the course specification. \[https://filestore.aqa.org.uk/resources/psychology/specifications/AQA-7181-7182-SP-2015.PDF\]](https://filestore.aqa.org.uk/resources/psychology/specifications/AQA-7181-7182-SP-2015.PDF)

Specific entry requirements

GCSE Grade 5 or above in Mathematics plus GCSE Grade 5 or above in Science.

Assessment

Assessments will include a variety of questions such as multiple choice, short answer and extended writing/essays which will test your skills of knowledge and understanding, application and evaluation.

Progression opportunities

This course develops skills that are useful in a number of jobs and professions including law, business, medicine, journalism, marketing, advertising, personnel work, management and many more. A Level Psychology also enables progression into further study of a wide range of other subjects in Higher Education, such as health, education and social work.
